

Klaes cloud - Your Wishes Become True!

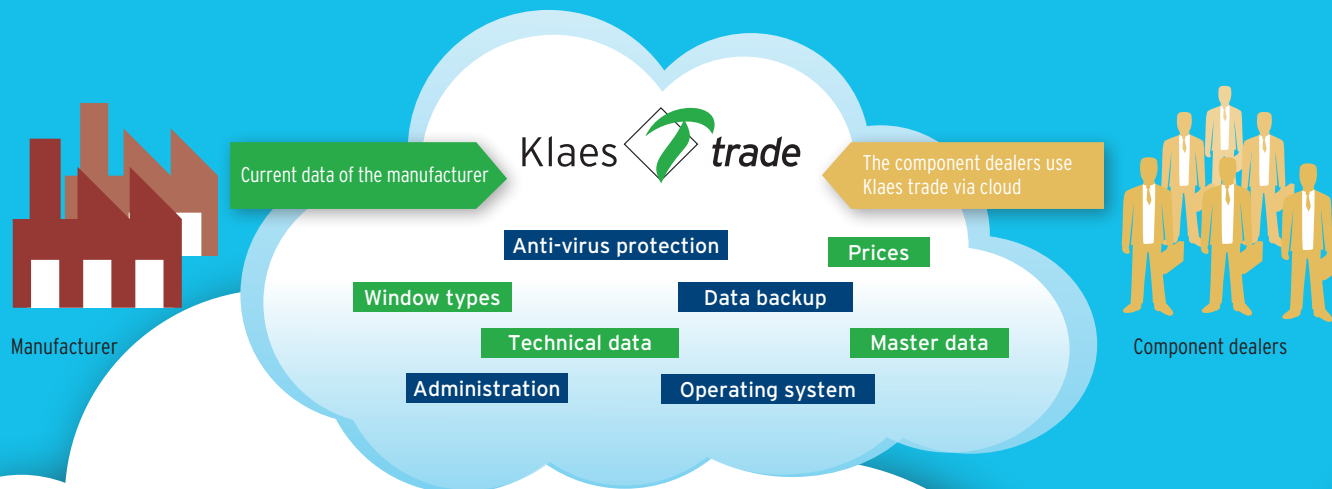

To enter offers fast and easily, to take over offers in orders and finally write partial- and final invoices. These are your daily important tasks that you can realize with Klaes trade in the future. You always work with the current program version and the current prices of your window supplier. You don't have to worry about software-updates and data backups.

How shall it work? It's very simple:

Switch on the computer, start the internet connection and off you go!

Your advantages as dealer at a glance:

- Direct access without installation
- Always a current program version
- Always current data
- Automatic data backup
- A multi-user solution is possible without having a network of your own
- Access where internet is available

Simply contact us:

Klaes GmbH & Co. KG
Wilhelmstraße 85 - 87
53474 Bad Neuenahr-Ahrweiler
Phone: +49 (2641) 909 - 0
Internet: www.klaes.com

Direct access without installation

You simply work „online“ via the internet. A local installation on your computer or network is not necessary.

Always a current program version

To install an update is sometimes a time consuming business. To perform a data backup, to install an update, to check the result - that's old hat!

Always current data

Never again ask for current prices of your supplier and install them! You always work with current data of your supplier.

Automatic data backup

Your data are in absolutely safe hands in many respects! A daily professional administration of the Klaes server ensures security - day and night!

Multi-user solution possible - without an own network

Work with as many employees as you like in the Klaes program. A network of your own is not necessary. You only need an appropriate number of internet-accesses.

Access where internet is available

To work in the office can make sense, but it is not necessary with Klaes cloud! You only need an access to the internet - ready you are!
